Introduction to Intelligent Transport Systems

2 Day Course

Code	Dates	Location	Type	Cost (ex VAT)
ITS2201	13-14 Jul 22	Landmark 3 Brindley Place Birmingham B1 2JB	Non Residential	IHE Members £825 + VAT Non members £900 +VAT

White Willow Consulting Ltd

Objectives

- To have confidence in understanding the concept of ITS and how it fits in your authority
- To better understand how existing ITS in your authority is used and how to get maximum benefit from it.
- To be able to see benefits for its adoption in your local authority's traffic systems
- To know where standards can help and where to look for specialist help, guidance and case studies
- To be able to explain ITS concepts and business cases in simple language

Learning outcomes

- Knowledge of the role of ITS in current and future transport policy delivery
- Knowledge of benefits and deployment in past case studies
- Awareness of how it fits in with other authority business e.g., IT, data, cyber security
- Knowledge of how to deploy ITS in existing traffic systems with minimal risk
- Awareness of connected vehicles, open data, AI and new sensing technology

Professional Registration

- Engineering Technician EngTech
- Incorporated Engineer IEng
- Chartered Engineer CEng

- Registered IT Technician RITTech
- Chartered IT Professional CITP
- ICT Technician ICTTech

Thank you.
