

Making the Case for Local Roads

Paula Clayton-Smith

Director, Government & Strategy

LCRIG (Local Councils Road Innovation Group)

LCRIG's mission is to facilitate fresh thinking in innovation and collaboration, whilst also helping the highways community achieve Net Zero.

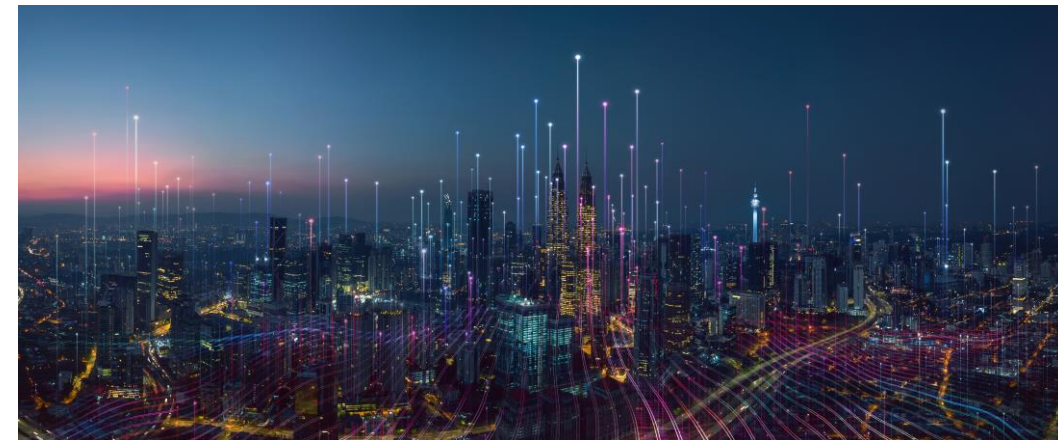

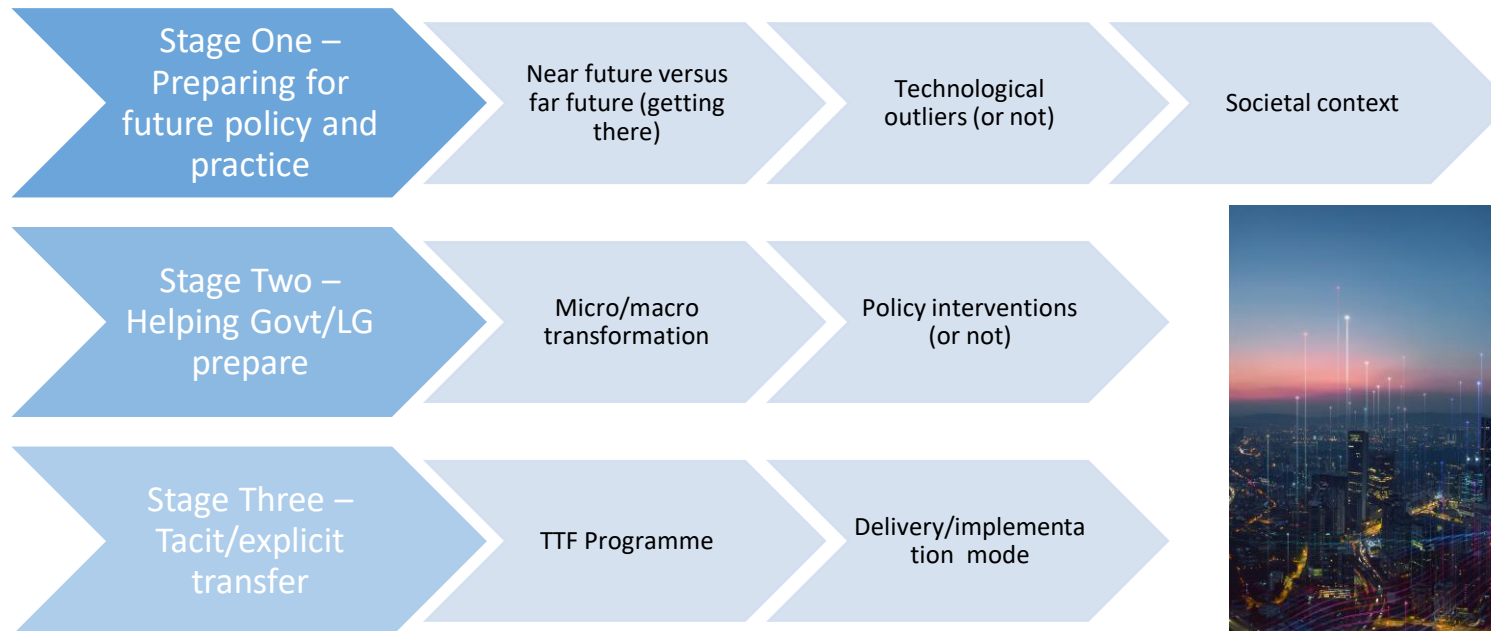

Net Zero
Climate Impact on infrastructure
Levelling Up & Regeneration Bill
Micro/macro innovation sector change
Build back better
Gear Change – Active Travel
Low Traffic Neighbourhoods
Transport Accessibility Gap
Queens Speech Transport Bill
Future of transport regulatory review (OZEV)
Micro-mobility
Technology advances
Digital Divide
Digitisation
Resourcing and skills
Supply Chain stability/hyperinflation
Aging workforce
And more.....

Tacit to tacit - socialisation
Tacit to explicit - externalisation,
Explicit to explicit - combination,
Explicit to tacit - internalisation.

Government – Support & Dissemination TTF
Webinars – Net Zero, Materials, Suppliers,
Themed
Events – Innovation Festival (live network trials),
Strictly Highways, ours plus others
Regional Groups – NW, SE
Applied Research – Innovation Reports
Funding distribution – “Think Exceptional”
Facilitation - #AsktheDfT
And more....

Nonaka and Takeuchi model of knowledge conversion

- Working with DfT and TTF
 - Policy Support: Synthesise what's happening in the wider sphere and help DfT (& others) prepare for this
 - Practical Support: Getting from Research to Applied research for practitioners along with practical insights
 - Planned implementation: Nudge to nurture to organic (rapid)
 - More on all of this to come later this year

Thank you.
